

AUSTRALIA PRODUCT GUIDE

Providing Safer, More Productive Jobsites

The infrastructure we rely on every day—from natural gas pipelines and high-voltage electric lines to water systems and communication networks—is mostly below the surface. That's why Subsite Electronics developed the most comprehensive suite of Underground Awareness[®] products in the industry. Our Horizontal Directional Drilling (HDD) guidance equipment and utility locators, help keep underground construction professionals safe and efficient, which makes a better world for all of us.

Ditch Witch CEA – Subsite HDD Guidance Systems			
		Part No.	Description
Marksman+ Tracker		102-2580 Marksman+ 102-2554 Commander 7 Display 102-2572 M17 Beacon 222-6212 Eva Case 220-2847 Swivel Base	32 frequencies (1.9 to 46kHz) – with dual power mode Depth – up to 40m New Marksman interface (switchable to TK Recon interface) "Drill To" mode (extended range)
TK Recon Tracker		102-1604 TK Recon4 102-2554 Commander 7 Display 102-1717 17T4 Beacon 222-6212 Eva Case 222-4411 Small Base	4 frequencies (1.5, 12, 20, 29kHz) Depth – up to 38m TK Recon interface "Drill To" mode
Commander 7 HDD Display		102-2554	7" colour LCD screen (600m telemetry range) Advanced "Drill To" mode with "Perspective View" Compatible with Marksman+ & Recon trackers Communicate between display and iOS or Android devices
HDD Beacons		102-2572 102-1717	M17 Plus: 32 frequencies (compatible with Marksman+) 17T4: 4 frequencies (compatible with TK Recon 4 or TK Recon 2)
